

Cenotech Solutions LLC Celebrates 1st Anniversary

Boston, October 8, 2014/Cenotech Solutions LLC/- Cenotech Solutions LLC celebrates their first year anniversary this month.

Cenotech has been focused on several strategic client projects over the last year and continues to grow by adding new clients, capabilities and employees. Tom Montgomery, President of Cenotech spoke recently at a dinner in which he focused on thanking our clients for their support over the last year. “Many of our clients have been with us since we started 15 years ago and we can’t thank them enough for their continued loyalty. In addition we have added several new clients this year that are providing us with new opportunities to showcase our newest capabilities”. The dinner was also an opportunity to announce Cenotech’s newest partnership with software vendor Bonitasoft. Bonita BPM is an industry leader in business process management solutions. “Bonita provides us with a new capability in which we can use to help our clients automate their daily workflows between systems and people” states Mike Lauritzen, Principal at Cenotech.

About Cenotech Solutions LLC

Cenotech Solutions is an consulting services specializing in providing business and technical expertise for the middle and back office for the financial services industry. Our expertise lies in a deep understanding of the information management and information flow requirements – how data is sourced and stored, where it is utilized and how it is integrated across the various applications and how business and operations use the data within the operating environment.
